Best known for their distributed denial of services (DDoS) attacks, past activities have included attacks against the Church of Scientology; Visa, Paypal, and others who withdrew their services from WikiLeaks' Julian Assange after that group began releasing war documents; #OpTunisia and others purporting to support the Arab Spring; and a campaign that brought down the website of the Westboro Baptist Church. #Ops are usually marked with the release of a video of a reader in a Guy Fawkes mask using a computer generated voice."

In order to properly respond to your request, it is necessary for us to take a 10 working day extension under 41 CFR 105-60.404(a)(1), the need to search for and collect the requested records from field facilities or other establishments that are separate from the office processing the request. You should expect a final reply on or before July 18, 2019.

We apologize for this delay and any inconvenience it may cause you.

Respectfully,
